

SCHOOL DRESS CODE

Rationale for School Dress Code

- A school dress code provides an appropriate range of clothing for children to wear in the workshop environment of school.
- A school dress code encourages a sense of belonging to the school. This is important not only in school, but also outside when children are representing the school and are ambassadors for the school.
- A school dress code ensures that children are not distracted from their learning by worrying about wearing or not wearing 'fashionable clothes'.
- A school dress code promotes good habits not only for secondary school but for lifelong learning.

The school colours are grey, green and white and these are also the colours of the school dress code.
